

DAY I: THURSDAY, 3rd MAY, 2018

Advanced Knee Arthroscopy workshop (Cadaveric) 2.5 CME/CPD

Mohammed Bin Rashid Academic Medical Center, DHCC – Anatomy Lab

Faculty: Dr. Nader Darwich  Dr. Mohamed Razi  Dr. Saeed Al Thani  Dr. Usama Saleh 

14:00 - 14:10 Welcome and briefing

George Petro

Hands-on Workshop

- 14:10 - 14:20 Current concept of meniscus repair and All-inside meniscal repair
- 14:20 - 14:30 Inside-out and outside-in meniscus repair
- 14:30 - 14:40 Root repair
- 14:40 - 14:55 What is anatomic ACL reconstruction?
- 14:55 - 15:10 How to perform Anatomic ACL Reconstruction
- 15:10 - 15:40 Intraoperative complications during ACL Reconstruction (Interaction session)
- 15:40 - 18:00 Cadaver Lab

DAY II: FRIDAY, 4th MAY, 2018

Comprehensive Practical Course on Primary Cementless Total Hip Arthroplasty

Congress Venue, Al Khaima Hall

Course Director: Prof. Dr. Luigi Zagra 

- 08:30 - 18:00
- Modern techniques of digital pre-operative templating,
 - Surgical approaches,
 - Tips tricks of surgical technique,
 - How to improve the clinical results (pain free with a full range of motion hip replacement),
 - How to avoid complications (dislocation, infection, leg length discrepancy),
 - Pain management and early post op need for rehabilitation
 - Selected techniques for complex cases (DDH, post-traumatic, protrusio), both in the acetabular and femoral side
 - How to improve patient satisfaction and how to evaluate clinical outcomes

Preserve the Knee (Cadaveric) 3 CME/CPD

Mohammed Bin Rashid Academic Medical Center, DHCC – Anatomy Lab

Faculty: Mr. Rik Kundra  Dr. Sachin Tapasvi  Dr. Nader Darwich 

14:00 - 14:05 Welcome and briefing

Vishal Vegad

Hands-on Workshop

- 14:05 - 14:20 Why I Brace My ACL and PCL Reconstructions. The Concept and Technique of INTERNAL BRACE Rik Kundra
- 14:20 - 14:35 My Technique for Repairing the ACL Sachin Tapasvi
- 14:35 - 14:50 My Tips and Pearls for Addressing Hidden Posterior "Ramp Lesion" Tear of the Meniscus Sachin Tapasvi
- 14:50 - 15:05 Why And How I Address The Root Of The Meniscus Rik Kundra
- 15:05 - 15:15 **Coffee Break**
- 15:15 - 18:00 Hands-On Cadaveric Lab
 - ACL Graftlink with Brace
 - Identifying and Repairing Ramp Lesion
 - Meniscal Root Repair

For Participation, please visit the registration desk

**For Cadaveric Workshops only*

Daily shuttle bus will be available at 13:30 from the Conference Venue to the Workshops Venue (MBRU, Building 14 in Dubai HealthCare City) and back at the end of the Workshops.

SCIENTIFIC PROGRAM

DAY I: THURSDAY, 3rd MAY, 2018

HALL A		HALL B	
08:00 - 09:00	Registration and Welcome Coffee		
09:00 - 10:00	Session I: AOTrauma UAE Chapter, Trauma Interactive Session Moderator: Usama Saleh		
09:00 - 09:20	CBL Proximal Humerus Fracture		Saeed Al Thani
09:20 - 09:40	CBL Femur Fracture Nonunion		Hayder Alsaadi
09:40 - 10:00	Panel Discussion		
10:00 - 10:30	Opening Ceremony & Inauguration of Exhibition		
10:30 - 12:00	Session II: Orthobiology Knee Sessions: Non-surgical treatment for knee osteoarthritis - Plenary Moderators: Karl Almqvist, Ossama Abdullah		
10:30 - 10:45	PRP injections does it work?		William Murrell
10:45 - 11:00	HA injection, what have we learned?		Khalil Al Matroushi
11:00 - 11:15	JXN Novel way of treating osteoarthritis, two years follow up?		Ahmed Al Qahtani
11:15 - 11:30	Mesenchymal stems cell, is this really the future?		Ashfaq Konchwalla
11:30 - 12:00	Questions and Answers		
12:00 - 13:00	Lunch Break		
13:00 - 14:00	Session III: Non-Arthroplasty Treatment for Knee Osteoarthritis: Moderators: Saeed Al Thani / Ali Al Belooshi		
13:00 - 13:15	HTO for knee osteoarthritis, Indication and outcome?		William Jackson
13:15 - 13:30	Distal femoral osteotomy for knee osteoarthritis, indications and outcome?		Harris Zourelidis
13:30 - 13:45	Fresh osteochondral allografts for post-traumatic knee defects.		Allan Gross
13:45 - 14:00	Questions and Answers		
14:00 - 14:10	Break		
14:10 - 15:50	Session IV 	14:10 - 15:50	Session V
14:10 - 15:50	AO Trauma Session - Periprosthetic Hip & Knee Fractures Moderators: Mahmoud Abdel Karim, Ali Al Belooshi	14:10 - 15:50	Cervical Spine Session Moderators: Khaled Faraj, John Abdelnoor
14:10 - 14:20	Unified Classification System Waleed Abdulwahid	14:10 - 14:20	Presentation of two Different cervical Disc Herniation By Moderators
14:20 - 14:35	Principles & Techniques of Fixation Osama Farouk	14:20 - 14:30	ACDF as your best option of Treatment Zbigniew Brodzinski
14:35 - 14:50	Principles of Revision and Implant selection Luigi Zagra	14:30 - 14:40	Artificial Disc Arthroplasty (CADA) as your best option Tareq Kanaan
14:50 - 15:10	Periprosthetic Acetabular Fractures Mahmoud Abdel Karim	14:40 - 14:50	Posterior Cervical Decompression with or without fusion instrumentation as your best option of treatment Federico Girardi
15:10 - 15:20	Management of Bone Loss Luigi Zagra	14:50 - 15:00	Treatment done with Questions and Discussion
15:20 - 15:40	Case Based lecture Ali Al Belooshi		Thoracic-Lumbar Spine Session Moderators: Firas Husban, Mohammed Armouti
15:40 - 15:50	Questions and Discussion	15:00 - 15:10	Presentation of two T/L Disc Herniation By Moderators
		15:10 - 15:20	Discectomy (Micro-vs-Open) as the option of treatment Shadi Shihata
		15:20 - 15:30	Posterolateral Decompression alone as option of treatment Federico Girardi
		15:30 - 15:40	Decompression with Fusion-Instrumentation Ramzi Bouzidi
		15:40 - 15:50	Treatment Done with Questions and Discussion
15:50 - 16:10	Coffee Break		
16:10 - 18:00	Session VI 	16:10 - 18:00	Session VII
16:10 - 18:00	Periprosthetic Knee Fractures Moderators: Mahmoud Abdel Karim, Osama Farouk	16:10 - 18:00	Trauma and Miscellaneous Spine Disease Moderators: Abdulrazzaq Alobaid, Shadi Shihata
16:10 - 16:50	Principles of Fixation and Implant Revision Mahmoud Abdel Karim	16:10 - 16:20	Presentation of cases Trauma, Infection and Tumour By Moderators
16:50 - 17:30	Case Based Lecture Saeed Al Thani	16:20 - 16:30	T/L Spine Trauma MISS (Short Segment vs Long Segment) Khaled Faraj
17:30 - 18:00	Questions and Discussion	16:30 - 16:40	T/L Spine Trauma Open (Ant. vs Post.) Ramzi Bouzidi
		16:40 - 16:50	Spine Infection John Abdelnoor
		16:50 - 17:00	Spine Tumor Tareq Kanaan
		17:00 - 17:10	Treatment done with Questions and Discussion
			Pain Management Procedures Moderators: Mohamed Alolama, Marcus Head
		17:10 - 17:20	Cases Presentation by the Moderators
		17:20 - 17:30	Injection as option of treatment (Epidural & Facet injections Nerve Root Block) Shadi Shihata
		17:30 - 17:40	SCS Spinal Cord Stimulator Mohammad Alolama
		17:40 - 17:50	Ablation and Radiofrequency Mohammed Armouti
		17:50 - 18:00	Treatment with Questions and Discussion
18:00	End of Day 1		

SCIENTIFIC PROGRAM

DAY II: FRIDAY, 4th MAY, 2018

HALL A		HALL B	
08:00 - 09:00	Registration and Welcome Coffee		
09:00 - 10:00	Session VIII - Ankle Soft tissue pathology: Moderator: Salem Al Shehry	Session IX - Hip Arthroplasty: Peri-Operative Considerations in THA Moderators: Shine Ashokan, Hesham Al-Khateeb	
09:00 - 09:20	Achilles tendon tear management and improving strength Johnny Lau	09:00 - 09:10	Work up of a painful Hip Hesham Al-Khateeb
09:20 - 09:40	Surgical management of lateral ankle ligament instability Saeed Al Thani	09:10 - 09:20	Arthroscopic management of FAI Ossama Abdallah
09:40 - 10:00	Panel Discussion	09:20 - 09:30	Arthroscopic AMIC with stem cells in treatment for hip cartilage lesions Jan Somers
		09:30 - 09:40	Role of tranexamic acid in Joint replacement Philip Roberts
		09:40 - 09:50	VTE Prophylaxis – is it a myth? Jan Somers
		09:50 - 10:00	Questions and Answers
10:00 - 10:20	Coffee Break		
10:20 - 11:50	Session X	10:20 - 11:50	Session XI
	Meniscus Moderators: Ashraf Abdelkafy, AbdulAziz Al Omar		Primary Hip Arthroplasty Moderators: Ali Al Belooshi, Mojeib Manzary
10:20 - 10:30	Anatomy of the meniscus Taiceer Abdulwahab	10:20 - 10:30	Super-path technique, indication and results Jan Somers
10:30 - 10:40	Management of meniscal injuries AbdulAziz Al Omar	10:30 - 10:40	The ideal approach – the unsolved question? Hesham Al-Khateeb
10:40 - 10:50	Meniscectomy: indications and technique Nader Darwish	10:40 - 10:50	Improving components positioning for cup and stem Shine Ashokan
10:50 - 11:00	Complex meniscal tears repair: Technical points Mohammad Razi	10:50 - 11:00	Bearing surfaces in 2018, where are we today? Fares Haddad
11:00 - 11:10	Degenerative meniscal tears Ashraf Abdelkafy	11:00 - 11:10	Femoral head size, does it matter Rajesh Malhotra
11:10 - 11:20	Ramp-lesions Sachin Tapasvi		Cross Fire:
11:20 - 11:30	Meniscal root tears Charles Brown	11:10 - 11:20	A. Cemented stems Hesham Al-Khateeb
11:30 - 11:40	Meniscal transplantation: an update and state of the art. Pascal Christl	11:20 - 11:30	B. Cementless stems Mojeib Manzary
11:40 - 11:50	Questions and Answers	11:30 - 11:50	Questions and Answers
11:50 - 13:40	Friday Prayer & Lunch Break		
13:40 - 14:25	Session By Special Guest XII		
	Charcot Foot Management Moderator: Salem Al Shehry		
13:40 - 14:25	State of art in Charcot Foot management Symposium		Johnny Lau
14:25 - 14:30	Intra-Sessional Break		
14:30 - 16:20	Session XIII	14:30 - 16:20	Session XIV
	Partial Knee Arthroplasty: Moderators: Yaaqoub Al Hammadi, Joost Lagast		Spine Deformity Moderators: Khaled Faraj, Mohammad Alolama
14:30 - 14:40	PFA, Patient selection and outcome? Harris Zourelidis	14:30 - 14:40	Presentation of Deformity cases By Moderators
14:40 - 14:50	UKA fixed Vs mobile bearing Yaaqoub Al Hammadi	14:40 - 14:50	MISS of Idiopathic Scoliosis as option of Treatment Federico Girardi
14:50 - 15:00	What does the registry tell us about UKA? William Jackson	14:50 - 15:00	MISS treatment of Degenerative Scoliosis Firas Husban
	UKA Cross Fire Session:	15:00 - 15:10	Kyphosis & Hyper lordosis Surgical Treatment Federico Girardi
15:00 - 15:10	A. I prefer Conventional instrumentations always William Jackson	15:10 - 15:20	Spondylolisthesis Surgical Treatment John Abdelnoor
15:10 - 15:20	B. Robotic assisted is the way forward Ali Al Belooshi	15:20 - 15:30	Treatment Done with Questions and Discussion
15:20 - 15:30	Questions and Discussion		Spine Surgical Complication Moderators: Federico Girardi, Ramzi Bouzidi
15:30 - 15:40	Primary Knee Arthroplasty: Kinematic alignment is the way to go Joost Lagast	15:30 - 15:40	Dural Tear Case with Treatment Ahmed Allam
15:40 - 15:50	Mechanical alignment is the gold standard Ashok Rajgopal	15:40 - 15:50	Post-Surgical Nerve Root Injury Basem Awad
15:50 - 16:00	Gap balance vs Resection measurement technique Nicolaas Budhiparama	15:50 - 16:00	Post-Surgical Spine Cord Ischemia & Injury Mohammad Alolama
16:00 - 16:20	Questions and Discussion	16:00 - 16:10	Post-Surgical Spine Infections Marcus Head
16:20 - 16:40	Coffee Break	16:10 - 16:20	Treatment Done with Questions and Discussion
16:40 - 18:30	Session XV	16:40 - 18:30	Session XVI
	Primary Knee Arthroplasty: Moderators: Usama Saleh, Abdullah Al Turki		Spine Surgery Assisting Procedures Moderators: Tareq Kanaan, Basem Awadh
16:40 - 16:50	Mid flexion instability, Reality or Industry Driven Jargon Joost Lagast	16:40 - 16:50	Dynamic MRI in Degenrative Cervical Myelopathy Basem Awad
16:50 - 17:00	Clash of Old and New: A. Conventional instrumentations is the gold standard Mojeib Manzary	16:50 - 17:00	Radiations Rami Salemeah
17:00 - 17:10	B. PSI- Myth or Legend? Usama Saleh	17:00 - 17:10	MISS Decompression Techniques Ahmed Allam
17:10 - 17:20	C. Robotic assisted knee surgery- every boys dream or nightmare? Fares Haddad	17:10 - 17:20	MISS Instrumentation Abdulrazzaq Alobaid
17:20 - 17:30	D. Handheld navigation knee arthroplasty is the best way? Rajesh Malhotra	17:20 - 17:30	Questions and Discussion
17:30 - 17:40	C. 3D printing could be the future of knee arthroplasty Mohamed Elfekky		Self Experiences (Open Case Presentation) Moderators: John Abdelnoor, Firas Husban
	Cross Fire Sessions:	17:30 - 17:40	Cervical Disc Arthroplasty CDA Cases Khalid Faraj, Tareq Kanaan
17:40 - 17:50	A. Cruciate retaining Ashok Rajgopal	17:40 - 17:50	DLIF/OLIF Cases Zbigniew Brodzinski, Firas Husban
17:50 - 18:00	B. PS knee Mojeib Manzary	17:50 - 18:00	Kyphoplasty/ Stentoplasty cases presentation Abdulrazzaq Alobaid
18:00 - 18:10	C. Non resurfacing Abdullah Al Turki	18:00 - 18:10	Lumbar Disc Arthroplasty (LDA) Cases Sameh Abolfotouh, Federico Girardi
18:10 - 18:20	D. Resurfacing Patella Ali Al Belooshi	18:10 - 18:30	Questions and Discussions
18:20 - 18:30	Are medial Pivot knees the future? Joost Lagast	18:10 - 18:30	End of Day 2

SCIENTIFIC PROGRAM

DAY III: SATURDAY, 5th MAY, 2018

HALL A		HALL B	
08:00 - 09:00 Registration and Welcome Coffee			
08:30 - 10:00 Session XVII		09:00 - 10:00 Session XVIII	
ACL Moderators: Nicolas Maffulli, Nader Darwich 08:30 - 08:40 Is there any chance of spontaneous healing of ACL? Mohammad Razi 08:40 - 08:50 Q - The forgotten graft Pascal Christel 08:50 - 09:00 Lateral extra-articular stabilization Sachin Tapasvi 09:00 - 09:10 Antero-lateral ligament reconstruction Nicolas Maffulli 09:10 - 09:20 ACLR - internal bracing Rik Kundra 09:20 - 09:30 The pediatric and adolescent ACL tear - what to do? Nader Darwich 09:30 - 09:40 Does ACLR prevent OA? Philippe Neyret 09:40 - 09:50 Revision ACLR Charles Brown 09:50 - 10:00 Questions and Answers		Difficult primary hip arthroplasty Moderators: Mojeib Manzary, Ali Al Belooshi 09:00 - 09:10 Hip arthroplasty in Ankylosing Spondylitis Rajesh Malhotra 09:10 - 09:20 Conversion of fused hip to a total hip arthroplasty – indications and pearls Allan Gross 09:20 - 09:30 Hip arthroplasty in sickle cell disease Mojeib Manzary 09:30 - 09:40 THA for dysplasia – tips and tricks Allan Gross 09:40 - 10:00 Questions and Answers	
10:00 - 10:30 Coffee Break			
10:30 - 12:00 Session XIX		10:30 - 12:00 Session XX	
PF Moderators: Philippe Neyret, Karl Almqvist 10:30 - 10:40 PF instability - diagnosis and the place of TTT Philippe Neyret 10:40 - 10:50 Lateral release? Ashraf Abdelkafy 10:50 - 11:00 MPFL reconstruction Rik Kundra 11:00 - 11:10 MPFL - anatomical vs radiological femoral tunnel Karl Almqvist 11:10 - 11:20 PF instability: the place of trochleoplasty Sachin Tapasvi 11:20 - 11:30 PF instability: 10 things to avoid Nicolas Maffulli 11:30 - 12:00 Questions and Discussion		Revision Hip Arthroplasty Moderators: Hesham Al Khateeb, Philips Robert 10:30 - 10:40 Extended trochanteric osteotomy for revisions Hesham Al Khateeb 10:40 - 10:50 Revision arthroplasty of the acetabulum with restoration of bone stock Allan Gross 10:50 - 11:00 Dual mobility in revision THA Philip Roberts 11:00 - 11:10 Cup cage reconstruction for bone loss & pelvic discontinuity Allan Gross 11:10 - 11:20 Management of femoral bone loss in revision THA Fares Haddad 11:20 - 12:00 Expert Panel discussion of complex cases	
12:00 - 12:30 Break			
12:00 - 13:15 Lunch Symposium			
The Perfect Equation in Total Hip Replacement: POLAR3		Mr. Philip Roberts, MD	
13:30 - 15:00 Session XXI			
Revision Knee Arthroplasty: Moderators: Rajesh Malhotra, Fares Haddad Infection Management: 13:30 - 13:40 A. How to avoid infection Usama Saleh 13:40 - 13:50 B. How to diagnose infection Rajesh Malhotra 13:50 - 14:00 C. One stage knee arthroplasty, are we any braver? Fares Haddad 14:00 - 14:10 D. Two stage knee arthroplasty, is it the gold standard? Orfan Arafah 14:10 - 14:20 The Real Value of Early Revision: DAIR - Indications & Limitations Nicolaas Budhiparama 14:20 - 14:30 How to remove well fixed knee implants safely Orfan Arafah 14:30 - 14:40 How to management bone loss in revision knee. William Jackson 14:40 - 15:00 Questions and Answers			
15:00 - 15:30 Congress Closing remarks			
15:30 End of Day 3			

HALL C

BEST OF OVT (ORTHOPEDIC VIDEO THEATRE)

11:00 TO 12:58 HRS & 16:00 TO 17:58 HRS

ADULT RECONSTRUCTION HIP/ KNEE

11:00 & 16:00 **Rotator Cuff Tear of the Hip: From Anatomy to Endoscopic Repair! [19 Min]**

Tear in the gluteus medius tendon is a common cause of greater trochanteric pain syndrome. The endoscopic gluteus medius repair is an effective treatment for patients with a gluteus medius tear.

11:19 & 16:19 **A New Custom Made Option for Complex Metadiaphyseal Bone Defects Reconstruction in Knee Revision Surgery [17 Min]**

Different surgical techniques are described in literature for difficult cases. This video shows a new custom made option, we propose in case of complex metadiaphyseal bone defects.

FOOT AND ANKLE

11:36 & 16:36 **Medial Malleolar Osteotomy with Fresh Osteochondral Allograft for Large Osteochondral Lesion of the Talus [12Min]**

A case presentation and overview of osteochondral allograft implantation through a medial malleolar osteotomy for large osteochondral lesions of the talus (OLTs).

11:48 & 16:48 **Ultrasound-Guided Gastrocnemius Lengthening: Ultraminimally Invasive Pathways [18Min]**

Gastrocnemius contracture is defined as ankle dorsiflexion of less than 10 degrees with the knee extended. Gastrocnemius recession is indicated in adults with dorsiflexion of less than 10 degrees with the knee extended.

SHOULDER AND ELBOW

12:06 & 17:06 **Arthroscopic-Assisted Lower Trapezius Tendon Transfer for Irreparable Posterior Superior Rotator Cuff Tear [13Min]**

The purpose of this video is to present a minimally invasive technique for lower trapezius tendon transfer.

12:19 & 17:19 **Stay Out of Trouble in Reverse Shoulder Arthroplasty [23 Min]**

To stay out of trouble in reverse shoulder arthroplasty the surgeon has to select the right patient, has to perform a thorough pre operative study, and has to deeply know the anatomy of the shoulder.

SPINE

12:42 & 17:42 **Concepts of Differently Shaped Rods Translation and Direct Vertebral Rotation for the Surgical Treatment of Adolescent Idiopathic Scoliosis: From Bench to Bedside [16Min]**

The aim of this video is to schematically describe the concept of differently shaped rods translation and direct vertebral rotation for surgical treatment of adolescent idiopathic scoliosis.

BEST OF OVT (ORTHOPEDIC VIDEO THEATRE)

14:00 TO 15:59 HRS

TRAUMA

14:00 **Use of the 95 Degree Angled Blade Plate to Treat a Proximal Femur Fracture [15 Min]**

This video shows a technique of using a fixed angle blade plate to treat a proximal femur fracture

14:15 **Safe Surgical Dislocation for Femoral Head Fractures [16 Min]**

Safe surgical dislocation is a reliable approach for surgical treatment of Pipkin fractures. It provides excellent exposure for fracture fixation and labral repair without risk of osteonecrosis.

BASIC SCIENCE/ RESEARCH

14:31 **Kocher Approach or Kaplan Approach to the Lateral Elbow? An Anatomical Insight to Drive our Choice [13 Min]**

This video will show the real anatomy of the lateral collateral ligament of the elbow and the relationship between the ligament and the lateral approach to the elbow

14:44 **Closed Reduction and External Fixation of Proximal Humeral Fractures. Rationale and Surgical Technique [19 Min]**

Closed reduction and external fixation of proximal humeral fractures has several advantages. A standardized technique helps the surgeon to perform a reliable and reproducible surgery

SPORTS MEDICINE

15:03 **Arthroscopic Bone Marrow Derived Cells Transplantation in Osteochondral Lesion of the Talus: Surgical Procedure, Technical Tips, and Results [23 Min]**

The aim of this video is to describe surgical tricks and pitfalls to perform BMDCT in the treatment of osteochondral lesions of the talus.

15:26 **Medial Patellofemoral Ligament Reconstruction Using a Partial Thickness Quadriceps Tendon Graft [15 Min]**

This technique video demonstrates medial patellofemoral ligament reconstruction using a partial thickness quadriceps tendon graft.

15:41 **Sulcus-Deepening Trochleoplasty for Trochlear Dysplasia [18 Min]**

For severe trochlear dysplasia with patellar instability, a sulcus-deepening trochleoplasty is a reliable surgery to correct a patient's abnormal distal femoral morphology. In previous studies, redislocation rates after this procedure have been universally low. In this video, the surgical technique is presented in detail, and one center's experience with this procedure is examined.

HALL C	HALL D
<p>BEST OF OVT (ORTHOPEDIC VIDEO THEATRE) 9:00 TO 10:58 HRS 14:00 TO 15:58 HRS 16:00 HRS TO 17:58</p> <p style="text-align: center;">ADULT RECONSTRUCTION HIP</p> <p>9:00; 14:00 & 16:00 Rotator Cuff Tear of the Hip: From Anatomy to Endoscopic Repair! [19 Min] Tear in the gluteus medius tendon is a common cause of greater trochanteric pain syndrome. The endoscopic gluteus medius repair is an effective treatment for patients with a gluteus medius tear.</p> <p>9:19; 14:19 & 16:19 A New Custom Made Option for Complex Metadiaphyseal Bone Defects Reconstruction in Knee Revision Surgery [17 Min] Different surgical techniques are described in literature for difficult cases. An Anatomical Insight to Drive our Choice [13 Min] This video will show the real anatomy of the lateral collateral ligament of the elbow and the relationship between the ligament and the lateral approach to the elbow</p> <p>9:44, 14:44 & 16:44 Closed Reduction and External Fixation of Proximal Humeral Fractures. Rationale and Surgical Technique [19 Min] Closed reduction and external fixation of proximal humeral fractures has several advantages. A standardized technique helps the surgeon to perform a reliable and reproducible surgery</p> <p style="text-align: center;">SPORTS MEDICINE</p> <p>10:03, 15:03 & 17:03 Arthroscopic Bone Marrow Derived Cells Transplantation in Osteochondral Lesion of the Talus: Surgical Procedure, Technical Tips, and Results [23 Min] The aim of this video is to describe surgical tricks and pitfalls to perform BMDCT in the treatment of osteochondral lesions of the talus.</p> <p>10:26, 15:26 & 17:26 Medial Patellofemoral Ligament Reconstruction Using a Partial Thickness Quadriceps Tendon Graft [15 Min] This technique video demonstrates medial patellofemoral ligament reconstruction using a partial thickness quadriceps tendon graft.</p> <p>10:41, 15:41 & 17:41 Sulcus-Deepening Trochleoplasty for Trochlear Dysplasia [18 Min] For severe trochlear dysplasia with patellar instability, a sulcus-deepening trochleoplasty is a reliable surgery to correct a patient's abnormal distal femoral morphology. In previous studies, redislocation rates after this procedure have been universally low. In this video, the surgical technique is presented in detail, and one center's experience with this procedure is examined.</p>

<p>BEST OF OVT (ORTHOPEDIC VIDEO THEATRE) 9:00 TO 10:58 HRS 14:00 TO 15:58 HRS</p>	<p>BEST OF OVT (ORTHOPEDIC VIDEO THEATRE) 9:00 TO 10:59 HRS 14:00 TO 15:59 HRS</p>
<p>ADULT RECONSTRUCTION HIP</p> <p>9:00; 14:00 Rotator Cuff Tear of the Hip: From Anatomy to Endoscopic Repair! [19 Min] Tear in the gluteus medius tendon is a common cause of greater trochanteric pain syndrome. The endoscopic gluteus medius repair is an effective treatment for patients with a gluteus medius tear.</p> <p>9:19; 14:19 A New Custom Made Option for Complex Metadiaphyseal Bone Defects Reconstruction in Knee Revision Surgery [17 Min] Different surgical techniques are described in literature for difficult cases. This video shows a new custom made option, we propose in case of complex metadiaphyseal bone defects.</p> <p>FOOT AND ANKLE</p> <p>9:36; 14:36 Medial Malleolar Osteotomy with Fresh Osteochondral Allograft for Large Osteochondral Lesion of the Talus [12 Min] A case presentation and overview of osteochondral allograft implantation through a medial malleolar osteotomy for large osteochondral lesions of the talus (OLTs).</p> <p>9:48; 14:48 Ultrasound-Guided Gastrocnemius Lengthening: Ultraminimally Invasive Pathways [18 Min] Gastrocnemius contracture is defined as ankle dorsiflexion of less than 10 degrees with the knee extended. Gastrocnemius recession is indicated in adults with dorsiflexion of less than 10 degrees with the knee extended.</p> <p>SHOULDER AND ELBOW</p> <p>10:06; 15:06 Arthroscopic-Assisted Lower Trapezius Tendon Transfer for Irreparable Posterior Superior Rotator Cuff Tear [13 Min] The purpose of this video is to present a minimally invasive technique for lower trapezius tendon transfer.</p> <p>10:19; 15:19 Stay Out of Trouble in Reverse Shoulder Arthroplasty [23 Min] To stay out of trouble in reverse shoulder arthroplasty the surgeon has to select the right patient, has to perform a thorough preoperative study, and has to deeply know the anatomy of the shoulder.</p> <p>SPINE</p> <p>10:42; 15:42 Concepts of Differently Shaped Rods Translation and Direct Vertebral Rotation for the Surgical Treatment of Adolescent Idiopathic Scoliosis: From Bench to Bedside [16 Min] The aim of this video is to schematically describe the concept of differently shaped rods translation and direct vertebral rotation for surgical treatment of adolescent idiopathic scoliosis.</p>	<p>TRAUMA</p> <p>9:00 & 14:00 Use of the 95 Degree Angled Blade Plate to Treat a Proximal Femur Fracture [15 Min] This video shows a technique of using a fixed angle blade plate to treat a proximal femur fracture</p> <p>9:15 & 14:15 Safe Surgical Dislocation for Femoral Head Fractures [16 Min] Safe surgical dislocation is a reliable approach for surgical treatment of Pipkin fractures. It provides excellent exposure for fracture fixation and labral repair without risk of osteonecrosis.</p> <p>BASIC SCIENCE/ RESEARCH</p> <p>9:31 & 14:31 Kocher Approach or Kaplan Approach to the Lateral Elbow? An Anatomical Insight to Drive our Choice [13 Min] This video will show the real anatomy of the lateral collateral ligament of the elbow and the relationship between the ligament and the lateral approach to the elbow</p> <p>9:44 & 14:44 Closed Reduction and External Fixation of Proximal Humeral Fractures.
