Message from the Congress Chairman

Dear Colleagues,

On behalf of the Emirates Orthopaedic Society, it is an honour and privilege to have organized the **11th Emirates International Orthopaedic Congress** held from **17-19 November 2023** in Abu Dhabi National Exhibition Centre (ADNEC), Abu Dhabi, United Arab Emirates.

The congress featured an exceptional assembly of distinguished speakers and renowned Orthopaedic surgeons from around the world. The scientific agenda encompassed a diverse array of compelling topics within various Orthopaedic specialties, attracting a substantial number of delegates who greatly benefited from the wealth of scientific material and information offered by the congress.

The 11th EIOC hosted an array of educational platforms, including panel discussions, refresher courses, abstract and research paper reviews, and industry symposia. These were carefully curated to keep professionals in academia and industry abreast of recent research and rapid developments in the field.

The congress provided an outstanding opportunity for networking and knowledge exchange. Discussions of topics such as sports medicine, joint replacement, and Orthopaedic surgical practices were particularly popular among participants. The gathering of experts under the congress's roof ensured an unparalleled networking opportunity for all attendees.

We extend our sincere appreciation to all participants, sponsors, exhibitors, supporting organizations, and committee members whose contributions were instrumental in making this congress a success.

In conclusion, we cordially invite you to join us for the next year's edition of the EIOC, scheduled from November 22nd to 24th, 2024.

Dr. Ali Al Suwaidi
Congress Chairman
President of Emirates Orthopaedic Society
Consultant Orthopaedic surgeon
Director, Shoulder & Upper Limb unit
Tarmeen Orthopaedic & Spine Surgery Centre
Abu Dhabi, UAE

PROGRAM HIGHLIGHTS

The congress concluded with participation from **20** Countries and a total of **863** Attendees registered.

The scientific program offered **13** Sessions, **94** Lecture Topics, **1** Industry symposium given by **53** Faculty members from **14** Countries who contributed over the **3** -day program.

The congress also received support and collaboration from **13** Sponsoring & Exhibiting Companies as well as endorsement from **6** Societies & Associations

Congress Learning Objectives

- Obtain critical updates on new technology, products and procedures
- Network with professional colleagues from across the country and around the world
- Evaluate a range of orthopaedic-related products for use in your clinical practice
- Expand your orthopedic knowledge into new specialty areas
- Get grounded In orthopaedic basics If you are new to the field

The 3-day congress targeted participation from the following areas of practice:

- Orthopaedic Surgeons
- Trauma Surgeons
- Intensivists
- Emergency Medicine Doctors
- Nurses
- Technicians
- Medical Students
- Sports Medicine Doctors
- Internists
- Orthopaedic residents
- Physiotherapists
- Pain Therapists

The congress envisioned the following benefits for the participants through this program

- Earn 21 CME hours by the Dubai Health Authority (DHA)
- Meet & learn from an outstanding group of high-profile international speakers covering a wide range of exciting topics in the latest researches & updates on rapid developments occurring in the field of orthopaedic medicine.
- Discover the latest technologies in the field and their applications.
- Network, meet and build relationships with your peers and colleagues.
- Participate in various comprehensive informative sessions.

CONGRESS INAUGURATION & OPENING CEREMONY

Guest of Honor

H.E. Dr. Rashed Obaid Alsuwaidi
The Executive Director of Healthcare
Workforce Planning Sector
At the Department of Health - Abu Dhabi

Hosted by Mr. Ammar Kadhim, the ceremony began with the United Arab Emirates National Anthem followed by Holy Quran Recitation.

The chairman of the congress, **Dr. Ali Al Suwaidi**, delivered the inaugural speech, marking the official commencement of the 11th EIOC. In his address, **Dr. Al Suwaidi** extended a warm welcome to the attendees and expressed his excitement about inaugurating a congress of such academic significance.

He underscored the congress's role in education and networking, urging participants to capitalize on the valuable opportunities it presented.

Following the inaugural speech, the guest of honor, **H.E. Dr. Rashed Obaid Alsuwaidi**, took the stage to deliver a speech emphasizing the critical role that congresses like the 11th EIOC play as platforms for learning and catalysts for skill development. He highlighted the Department of Health's eager and successful support for academic congresses.

The opening ceremony concluded with the inauguration of the Exhibition Area by the guests of honor and the congress committee.

Abu Dhabi, UAE

CME/CPD Accreditation:

The **11th Emirates International Orthopaedic Congress (11th EIOC)** was accredited with **21** CME/CPD Credit Hours by Dubai Health Authority (DHA).

SCIENTIFIC PROGRAM

The program was conducted in **1** main hall over the course of the **3**-day congress.

Following Topics were the highlights of the congress:

- Evidence-based medicine and research in orthopaedics
- Update in conditions of elbow wrist and hand
- Sport Medicine and Arthroscopy
- Joint Replacement and Recent Advances
- Trauma Care and Management
- Pain Management
- Foot and Ankle Surgery
- Management of Infection in Orthopaedic

Day - I

Friday, 17 November 2023

07:30 - 08:00	Registration	
07:50 - 08:00	Welcome Remarks	
08:00 - 12:00	Shoulder Sessions	
08:00 - 09:00	Session 1: Rotator Cuff Tear	
	Moderators: Ali Al Suwaidi & Nagib Atallah Yurdi	
08:00 - 08:10	Anatomy & Biomechanics of rotator cuff	Ahmed Al Mandhari
08:10 - 08:20	Arthroscopic evaluation on rotator cuff vasculature	Stefano Gumina
08:20 - 08:30	Classification of cuff tears	Hasan Baydoun
08:30 - 08:40	Single row cuff repair (my preferred approach)	Stefano Gumina
08:40 - 08:50	Double row cuff repair (my preferred approach)	Nagib Atallah Yurdi
08:50 - 09:00	Question & Answer	
09:00 - 10:00	Session 2: Massive Cuff /Revision Cuff Surgery	
	Moderators: Ali Al Suwaidi & Nagib Atallah Yurdi	
09:00 - 09:10	Management of failed cuff surgery	Ahmed Al Mandhari
09:10 - 09:20	Why lower traepzius is my preferred transfer and how I do it?	 Bassem Elhassan
09:20 - 09:30	Why latissimus dorsi is my preferred transfer and how I do it?	 Olivier Verborgt
09:30 - 09:40	Role of Biologics in cuff repair	Ashfaq Konchwalla
09:40 - 10:00	Question & Answer	
10:00 - 10:30	Opening Ceremony, Exhibition Inauguration & Coffee Break	
10:30 - 12:00	Session 3: Shoulder Arthroplasty	
	Moderators: Usama Saleh & Philippe Landreau	
10:30 - 10:40	Primary OA in young population	Philippe Landreau
10:40 - 10:50	Management of Glenoid Bone Loss	Ali Al Suwaidi
10:50 - 11:00	PSI for Shoulder Arthroplasty	Emmanuel Masmejean
11:00 - 11:10	Arthroplasty for Elderly: Reverse vs. Anatomical	 Olivier Verborgt
11:10 - 11:20	RSA in acute proximal humerus fracture	Usama Saleh
11:20 - 11:30	RSA in patients with Deltoid Atrophy	 Bassem Elhassan
11:30 - 11:40	Neurological complications associated with Shoulder arthroplasty	Emmanuel Masmejean
11:40 - 12:00	Discussion and Question & Answer	
12:00 - 14:00	Friday Prayer & Lunch Break	
14:00 - 17:40	Sports Knee Sessions	
14:00 - 15:50	Session 4: Controversies in ACL Reconstruction	
	Moderators: Philippe Landreau & Sebastian Orduna	
14:00 - 14:10	Nonoperative Management of ACL Rupture	Abdulla Al Rahoma
14:10 - 14:20	Acute ACL rupture: a biological approach	Prashant Meshram
14:20 - 14:30	Best timing for ACL reconstruction	 Ashish Soni
14:30 - 14:40	ACL repair: How and for which case?	Sultan Al Maskari
14:40 - 14:50	ACL augmentation: Is it better?	Uwe Nellessen
14:50 - 15:00	Internal brace: Is there a place for that?	Azzam Fayyad
15:00 - 15:10	Hamstrings graft: 4, 5 or 6 strands?	Riad Fakhir
15:10 - 15:20	Patellar tendon graft in Middle East	Philippe Landreau
15:20 - 15:30	Quad tendon graft	 Shine Ashokan
15:30 - 15:40	Peroneal longus graft	Karthikraj Kuberakani
15:40 - 15:50	Question & Answer	
15:50 - 16:20	Coffee Break	
16:20 - 17:40	Session 5: Controversies in ACL Reconstruction	
	Moderators: Sultan Al Maskari & Karthikraj Kuberakani	
16:20 - 16:30	Allografts for ACL reconstruction	Karl Fredrik Almqvist
16:30 - 16:40	Best tunnels position in 2023	Nader Darwich
16:40 - 16:50	Femoral tunnel: outside in or inside out?	Rik Kundra
16:50 - 17:00	Lateral tenodesis or ALL reconstruction?	Sebastian Orduna
17:00 - 17:10	Treatment of MCL Injury in Combined ACL/MCL Injury	 Saeed Al Thani
17:10 - 17:20	Criteria for Return to Sport Following ACL Reconstruction	Philippe Landreau
17:20 - 17:40	Clinical Cases Discussion	
	Sultan Al Maskari, Philippe Landreau, Nader Darwich, Sebastian Orduna, Rik Kundra & Karl Fredrik Almqvist	
17:40	End of Day 1	

07:30 - 08:00	Registration	
08:00 - 09:30	Sessions	
08:00 - 09:30	Session 6: The young and active patient	
	Moderators: Yaaqoub Al Hammadi & Muath Adi	
08:00 - 08:10	How to manage the expectations of the young and active?	Muath Adi
08:10 - 08:20	Can double level osteotomies be an option?	Ali Al Belooshi
08:20 - 08:30	Sport after arthroplasty: can uni patients do more than TKA patients?	Sebastien Parratte
08:30 - 08:40	What are the surgical specificities of the TKA for the young and active patients?	Husam Al Rumaih
08:40 - 08:50	What should we do with the young and obese patients?	Jon Conroy
08:50 - 09:00	The challenge of TKA for post-traumatic OA	Oussama Char
09:00 - 09:30	Question & Answer	
09:30 - 10:00	Coffee Break	
10:00 - 12:00	Session 7: Implant positioning in Knee Arthroplasties	
	Moderators: Sebastien Parratte & Ali Al Belooshi	
10:00 - 10:10	Understand the coronal alignment in TKA?	Ali Al Belooshi
10:10 - 10:20	Why is tibial slope important in TKA?	Jon Conroy
10:20 - 10:30	How should we manage the tibial rotation?	Samih Tarabichi
10:30 - 10:40	Paradigm change for the femoral rotation: from always 3 degrees to personalized rotation	Sebastien Parratte
10:40 - 10:50	Is medial pivot knee the solution to improve FJS?	Husam Darwish
10:50 - 11:00	Question & Answer	
11:00 - 11:30	Hot topic	
	The third compartment in TKA	
	1. Why is it important?	Feras Ya'ish
	2. How to manage it ?	Mojeib Manzari
11:30 - 12:00	Emirates Orthopaedic Society best paper Award:	
	Moderators: Ali Al Suwaidi & Ali Al Belooshi & Prashant Meshram	
11:30 - 11:35	A prospective study of the functional outcome of 3 stitch technique in a compound humerus shaft fracture	Abhirajsinh Patel
11:35 - 11:40	Evaluation of functional outcome and health related quality of life for surgically treated per prosthetic fractures around hip and knee arthroplasty	Ahmed El-Bakoury
11:40 - 11:45	Functional outcome of Anterior cruciate Ligament Augmentation	Mazin Abkar
11:45 - 11:50	Prevalence rate of neuropathy due to pelvic and acetabulum fractures and relation between different types of neuropathy and types of fractures	Ali Moazzampour
11:50 - 11:55	Addressing Trauma Theatre Start Time To Improve Efficiency	Neev Trehan
11:55 - 12:00	The Prevalence of Neck Pain in Association to Electronic Device Usage Among Adults in the UAE	Kanzy Yasser
12:00 - 12:05	A case series for Enneking stage III vertebral hemangiomas management and Outcome	Abdulrahman Alabdulkareem
12:05 - 12:10	Comparing pinning in situ and capital realignment procedures for severe, stable slipped capital femoral epiphysis: a systematic review	Ahmed El-Bakoury
12:10 - 12:15	Conversion of stiff hips to mobile hips using Harding Approach with more than two years follow up	Inder Pawar
12:15 - 12:20	Custom-design femoral stems in total hip replacement	Ahmed El-Bakoury
12:20 - 12:25	Functional and radiological outcomes following sacroiliac screw fixation of posterior pelvic ring injuries	Ahmed El-Bakoury
12:25 - 12:30	Prevalence of Constitutional Varus Knees Among the Saudi Population at King Saud University Medical City	Bandar Aljammaz
12:00 - 12:30	Industry Symposium	
	The Power Of One: Enhancing TKA outcomes through technology	Ali Al Belooshi
12:30 - 14:00	Lunch Break	
14:00 - 18:00	Clinical case-based Discussion Session	
14:00 - 15:30	Session 8: The unhappy patient: interactive Session	
	Moderators: Samih Tarabichi & Yaaqoub Al Hammadi	
14:00 - 14:15	The unhappy UKA with normal x-rays	Sebastien Parratte
14:15 - 14:30	The unhappy TKA with normal x-rays	Husam Al Rumaih & Mojeib Manzari

14:30 - 15:00	Screening, diagnosis, approach with short summary made by the moderators: Key point messages to take home Experts & Moderators: Sebastien Parratte, Husam Al Rumaih, Mojeib Manzari, Samih Tarabichi & Yaaqoub Al Hammadi	
15:00 - 15:30	Hot topic in TKA Effectiveness of LIA in TKA 1. Evidence-based summary of the literature: effectiveness, products and doses 2. Practical considerations: how, when and where?	Jaber AlKhyeli REC Saeed Al Thani
15:30 - 16:00	Coffee Break	
16:00 - 18:00	Session 9: Practical consideration in revision surgery Moderators: Mojeib Manzari & Sebastien Parratte	
16:00 - 16:10	How to approach the stiff knee?	Husam Darwish
16:10 - 16:20	How to remove the implants?	Oussama Chaar
16:20 - 16:30	How to restore the joint line?	Sultan Al Maskari
16:30 - 16:40	How to manage the unstable TKA?	Mojeib Manzari
16:40 - 17:00	Question & Answer	
17:00 - 17:50	Hot seats and Interactive Clinical Cases Session Moderators: Sebastien Parratte & Ali Al Belooshi Experts: Samih Tarabichi, Husam Al Rumaih, Husam Darwish, Mojeib Manzari & Oussama Chaar	
17:50 - 18:00	Summary and take-home messages	
18:00	End of Day 2	

Day - III

Sunday, 19 November 2023

07:30 - 08:00	Registration	
08:00 - 12:30	Foot & Ankle Sessions	
08:00 - 09:30	Session 10: How to manage Elite Athletes Moderators: Husam Darwish & Moez Ballal	
08:00 - 08:10	Management of Acute Achilles Rupture in the Elite athlete	Leslie Cannon
08:10 - 08:20	Ankle sprains: are there special considerations in athletes?	Praneeth Revuri
08:20 - 08:30	Syndesmotic injuries in the athlete	Haris Naseem

At AMICO Group, we have comprehensive knowledge of the Middle East markets, the emerging industry trends, economic changes and cultural diversity throughout the region. 'Think globally, act locally,' is an accurate representation of our corporate culture. Local challenges will require local solutions, however, without access to global resources the local solutions may well be a compromise. If highly specialized services are readily available in one country, yet unavailable in another, or if financing is of a shortage in a certain country, supportive solutions may be obtained from our corporate center.

The congress includes a variety of educational methods, including panel discussions with high-profile international and regional speakers, refresher courses, and workshops, in addition, to industry symposia, which will provide a rich scientific program that allows professionals in academia and industry to stay current with recent research and rapid developments

Dr. Ali Al Suwaidi, Chairman of the Orthopaedic Division at the Emirates Medical Association and Chairman of the Conference, said that the eleventh session of the conference, in which more than 1,000 doctors, specialists and technicians participate, is of particular importance to doctors, specialists and professionals in the fields of orthopaedics, not only as one of the most important and largest bone clusters in the country, but also because the organizing committee has chosen new topics to discuss and discuss at length, especially topics related to joint replacement operations using augmented reality, artificial intelligence, machine learning, and the latest global trends. In the field of cartilage transplantation using stem cell stem cell technology

The conference also includes a variety of educational methods, more than 50 scientific papers and 5 workshops, in addition to training courses and educational lectures for students and researchers, providing a blind platform that allows specialists from all academic and industrial circles to keep abreast of the latest research and rapid developments, discuss the latest orthopaedic disease treatments, and review the latest innovations and scientific research conducted globally during the past year.

In recent years, augmented reality and artificial intelligence technologies have become increasingly useful in Orthopaedics thanks to their many advantages that provide operating teams with the tools to take a more specialized approach to patient care.

Dr. Ali Al Suwaidi pointed out that the objectives of the annual conference of the Emirates Medical Association since its inception aims to provide a platform to train national doctors and their counterparts from neighboring countries on the latest global trends in the diagnosis and treatment of Orthopaedic disease and exchange experiences and knowledge in everything related to orthopaedic surgeries with the best international experts and specialists. In addition to reviewing the latest modern medical devices and equipment used in orthopaedic surgeries and discussing new treatments.

From 17 to 19 November, the capital Abu Dhabi will host the eleventh session of the Emirates International Orthopaedic Conference, organized by the Emirates Orthopaedic Division of the Emirates Medical Association at the Abu Dhabi Exhibition Centre "ADNEC", with the participation of 1000 international experts with the support of the Department of Tourism to Abu Dhabi and in cooperation with the Department of Health, the Emirates Health Services, and the Dubai Health Authority. The conference organized by Info Plus will address a wide range of topics related to the field of orthopaedics and modern fields, where participants will benefit from the latest research and up-to-date information.

APP FEATURES:

- ✓ View program at the touch of your fingers
- ✓ Know your faculty members
- ✓ Bookmark your sessions
- ✓ Connect with fellow attendees
- ✓ Get to know our sponsors and exhibitors

To download the Event App, follow these steps:

Step 1: Go to the App Store (iOS) or the Play Store (Android) and search for "EIOC" then locate and download the app.

Step 2: On the "EIOC" app, Type "11th EIOC" in the search bar and download the event.

Step 3: Enter your first and last name, along with your registered email ID - check your email for the OTP (one-time password) to log in to the Event App.

Note: Only registered attendees can access the full Event App. If you don't receive the OTP, your email ID might not be registered for the conference. If you registered with a different email not on your device, contact the InfoPlus Helpdesk onsite to add your alternate email ID. Then, log in again to get the verification OTP and access the full mobile App.

الإمارات توفر الخدمات ولا أسباب للعلاج في الخارج

469 م 0 2023. 20 نوفمبر التحرير

دعا المؤتمر الإماراتي الدولي الحادي عشر لجراحة العظام الذي تنظمه جمعية الإمارات لجراحة العظام التابعة لجمعية الإمارات الطبية في ختام أعماله أمس، بمركز أبوظبي للمعارض (أدنيك) في أبوظبي، المؤسسات الطبية في الدولة إلى مواصلة دعم وتعزيز منظومة السياحة العلاجية في الدولة والتي أصبحت تنسقطب آلاف المرضى لنفسي العلاج سنوياً في مختلف التخصصات الطبية فيما طب وجراحة العظام.

وأكد المؤتمر أن منظومة الرعاية الصحية في دولة الإمارات خصوصاً في مجالات طب وجراحة العظام تتمتع بمهنية عالية وتطبق أرفى المعايير والممارسات الطبية العالمية من خلال توفر أفضل الكوادر الطبية وأحدث التقنيات العلاجية، ولا يوجد سبب يستدعي السفر للعلاج خارج الدولة، باستثناء بعض الحالات النادرة جداً.

وأكد المشاركون في المؤتمر أن إمارة أبوظبي ودي لديها العديد من المراكز الطبية المتقدمة التي تمتلك كل الإمكانيات من كوار طبية وأجهزة حديثة بجانب استخدامات الروبوت والذكاء الاصطناعي المعزز والتقنيات المساعدة، تجذب عديد المرضى الذين يلتمسون العلاج داخل الدولة سواء من دول الخليج أم منطقة الشرق الأوسط، كما أكدوا مواصلة الأطباء للتدريب العملي والتعليم الطبي المستمر وانتهاء الفرض المتاحة لاستكمال بحوثهم في التقنيات الحديثة في جراحات العظام باستخدام الروبوت والذكاء الاصطناعي.

مناقشات

وقال الدكتور علي السويدي رئيس جمعية العظام في جمعية الإمارات الطبية، رئيس المؤتمر، إن مناقشات اليوم الأخير تركزت على الحوادث التي تقضي على إصابات القدم والكاحل، ومن ثم التركيز على الكسور وإصابات الأربطة والإصابات الرياضية وبحث كل ما اسجد فيها من تطورات تتعلق بالتشخيص والعلاج من تطوير مفصل الكاحل والتدخل الجراحي الطفيل للتشوهات الخلقية في القدم.

وأكد أن الاعتقاد السائد في المجتمع بضرورة إجراء عملية الرباط الصليبي خاصة للرياضيين في الخارج، أصبح اعتقاداً يحتاج إلى إعادة نظر خصوصاً أن مؤسساتنا الصحية في هذا المجال أصبحت تضاهي كبريات المراكز العالمية في الخارج من حيث الخبرات والتقنيات وحتى من حيث العناية الطبية بعد إجراء عملية الرباط الصليبي، فجميع أطبائنا في تلك المؤسسات أنفوا دورات طبية متقدمة في علاج هذه الإصابات وأكملوا دراسات حديثة في العناية بتلك الإصابات بما فيها تفرق الرباط الصليبي وأربطة الكاحل وجميع هذه العمليات تتم بأحدث الأساليب العلمية تماماً كما تجرى في الخارج، مشيراً إلى أنه لا يوجد أي فرق يذكر بين إجراء عمليات الرباط الصليبي خارج الدولة أو داخلها فهي تتم بالطريقة والتقنيات والخبرات الطبية نفسها.

تدريب

وتابع الدكتور السويدي أن جمعية الإمارات الطبية وشعبة العظام دائماً سباقة في توفير الفرض التدريبية المتميزة للأطباء داخل الدولة، وبالتالي تجهيزهم بعناء السفر لحضور المؤتمرات والدورات التدريبية في الخارج، وأن المؤتمر الدولي الإماراتي لجراحة العظام في دورته الحادية عشرة يؤكد هذا التوجه للجمعية، حيث أقيم المؤتمر عبر تاريخه بعرض موسع لكل التطورات الحديثة ومن مختلف دول العالم مما يوفر فرصة سنوية لأطباء الإمارات للاطلاع على كل ما هو جديد ومبتكر في تخصصات طب وجراحة العظام وتوصيل هذه المعلومات بيسر وسهولة، ونحن مستمرون في هذا التوجه الذي يخدم الأطباء والقيمين وبيئة التمريض في مؤسساتنا الصحية، والتي تصب في رعاية المصابين في تقديم خدمات علاجية ورعاية طبية متميزة للمرضى.

مؤتمر الإمارات الحادي عشر لجراحة العظام يواصل أعماله بأبوظبي

السبت، 18 نوفمبر / تشرين الثاني 23

تواصل فعاليات المؤتمر الإماراتي الدولي الحادي عشر لجراحة العظام، الذي تنظمه شعبة الإمارات لجراحة العظام التابعة لجمعية الإمارات الطبية بمركز أبوظبي للمعارض "أدنيك" في أبوظبي

واستعرض المؤتمر برنامجه العلمي والمحاور الرئيسية في مجالات جراحة العظام كجراحة تغيير المفاصل والطب الرياضي وجراحات الكسور وجراحات الأطراف العلوية وتشوهات الأطراف والقدم والكاحل حيث واصل المؤتمر استعراض الأوراق البحثية بجانب ورش العمل والمحاضرات

وقال الدكتور علي البلوشي استشاري جراحة العظام وتبديل المفاصل نائب رئيس شعبة العظام في جمعية الإمارات الطبية، إن طب وجراحة العظام في دولة الإمارات شهد خلال السنوات الماضية تطوراً كبيراً نتيجة استقطاب أفضل الخبرات البشرية والمراكز الطبية العالمية إلى جانب الاستعانة بأحدث الأجهزة والتقنيات الحديثة المستخدمة في التشخيص والعلاج وأفضل الممارسات الطبية مما ساهم في تقليل نسبة المرضى الذين كانوا يسافرون للعلاج إلى خارج الدولة في السابق، مشيراً إلى أن أكثر من 90 في المائة من عمليات استبدال المفاصل أصبحت تتم في مستشفيات الدولة

ولفت إلى أنه تم في اليوم الثاني للمؤتمر استعراض مجموعة واسعة من المواضيع المتعلقة بجراحة العظام والمجالات الحديثة التي طرأت على طب العظام وأحدث التوجهات العالمية الخاصة بتقنيات الخلايا الجذعية والاستخدامات الحديثة للمناظير الطبية في مجالات استبدال الركبة ومفصل الكتف عبر استخدامات الروبوت والذكاء الاصطناعي

وأوضح أنه تم أيضاً استعراض.....

أبوظبي (وام)

تواصل فعاليات المؤتمر الإماراتي الدولي الحادي عشر لجراحة العظام، الذي تنظمه شعبة الإمارات لجراحة العظام التابعة لجمعية الإمارات الطبية بمركز أبوظبي للمعارض "أدنيك" في أبوظبي.

واستعرض المؤتمر برنامجه العلمي والمحاور الرئيسية في مجالات جراحة العظام كجراحة تغيير المفاصل والطب الرياضي وجراحات الكسور وجراحات الأطراف العلوية وتشوهات الأطراف والقدم والكاحل حيث واصل المؤتمر استعراض الأوراق البحثية بجانب ورش العمل والمحاضرات.

وقال الدكتور علي البلوشي استشاري جراحة العظام وتبديل المفاصل نائب رئيس شعبة العظام في جمعية الإمارات الطبية، إن طب وجراحة العظام في دولة الإمارات شهد خلال السنوات الماضية تطوراً كبيراً نتيجة استقطاب أفضل الخبرات البشرية والمراكز الطبية العالمية إلى جانب الاستعانة بأحدث الأجهزة والتقنيات الحديثة المستخدمة في التشخيص والجراحة والعلاج وأفضل الممارسات الطبية مما ساهم في تقليل نسبة المرضى الذين كانوا يسافرون للعلاج إلى خارج الدولة في السابق، مشيراً إلى أن أكثر من 90 في المائة من عمليات استبدال المفاصل أصبحت تتم في مستشفيات الدولة. ولفت إلى أنه تم في اليوم الثاني للمؤتمر استعراض مجموعة واسعة من المواضيع المتعلقة بجراحة العظام والمجالات الحديثة التي طرأت على طب العظام وأحدث التوجهات العالمية الخاصة بتقنيات الخلايا الجذعية والاستخدامات الحديثة للمناظير الطبية في مجالات استبدال الركبة ومفصل الكتف عبر استخدامات الروبوت والذكاء الاصطناعي.

وأوضح أنه تم أيضاً استعراض ومناقشة مرض خشونة الركبة للمرضى في بداية الإصابة كإجراء وقائي لتفادي اللجوء إلى العملية الجراحية من خلال العلاجات بالأدوية والتمارين الرياضية والإبر الزيتية أو الصفائح معاً حيث عُرضت دراسات جديدة أكدت مدى استفادة المرضى من الحقن الزيتية مع حقن الصفائح "بي آر بي" إلا أن الأطباء أجمعوا على أن هذا الإجراء على الرغم من أهميته إلا أنه لا يعمل على ترميم وبناء الغضروف وهذه معلومة طبية مؤكدة تفيد بأن الإبر الزيتية مع إبر الخلايا الجذعية لا تعمل على بناء الغضاريف.

وأكد أن الإبر الزيتية تستخدم كعلاج لتخفيف الخشونة لأنها تزيد اللزوجة المفقودة في المفصل وبالتالي تخفف من شدة الاحتكاك والألم وتُعطى للمريض حسب حالته الصحية وحسب حدة الخشونة التي يعاني منها ونحن كأطباء لا ننصح بأخذ الإبرة الزيتية في مدة تقل عن ثلاثة أشهر حيث لابد من إجراء طبي آخر ما لم يفد هذا الإجراء.

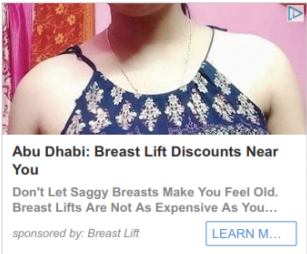

وتوه إلى أن استخدام الروبوت والذكاء الاصطناعي خلال الجراحة يمتاز بدقة عالية في التخطيط والتنفيذ الأمر الذي يخفض من الأخطاء البشرية بنسبة 20 في المائة، لافتاً إلى أنه باستخدام الروبوت تصل نسبة الدقة إلى 99 في المائة فضلاً عن أن الوقت المستغرق ونسبة الألم والنزيف أثناء إجراء العملية والفترة التي يمضيها المريض داخل المستشفى تصبح أقل بكثير من الطرق التقليدية.

وقالت ديمنا قبح مسؤولة بمستودع الإنماء للأدوية: "تعرض أحدث منتجات من الأدوية المعتمدة من قبل الهيئة الأميركية للغذاء والدواء 'FDA' لعلاج الخشونة وتحفيز إنتاج الكولاجين في الجسم وهو منتج 'سي أتش ألفا'".

HEALTH CARE ABU DHABI TO HOST EMIRATES INTERNATIONAL ORTHOPAEDIC CONGRESS ON NOVEMBER 17

October 29, 2023 | UAE NEWS | LEAVE A COMMENT
Abu Dhabi to host Emirates International Orthopaedic Congress on November 17

From 17 to 19 November, the capital Abu Dhabi will host the eleventh session of the Emirates International Orthopaedic Conference, organized by the Emirates Orthopaedic Division of the Emirates Medical Association at the Abu Dhabi Exhibition Center "ADNEC", with the participation of 1000 international experts with the support of the Department of Tourism in Abu Dhabi and in cooperation with the Department of Health, the Emirates Health Services, and the Dubai Health Authority.

The conference organized by Info Plus will address a wide range of topics related to the field of orthopaedics and modern fields, where participants will benefit from the latest research and up-to-date information.

Dr. Ali Al Suwaidi, Chairman of the Orthopaedic Division at the Emirates Medical Association and Chairman of the Conference, said that the eleventh session of the conference, in which more than 1,000 doctors, specialists and technicians participate, is of particular importance to doctors, specialists and professionals in the fields of orthopaedics, not only as one of the most important and largest bone clusters in the country, but also because the organizing committee has chosen new topics to discuss and discuss at length, especially topics related to joint replacement operations using augmented reality, artificial intelligence, machine learning, and the latest global trends. In the field of cartilage transplantation using stem cell stem cell technology.

The conference also includes a variety of educational methods, more than 50 scientific papers and 5 workshops, in addition to training courses and educational lectures for students and researchers, providing a blend platform that allows specialists from all academic and industrial circles to keep abreast of the latest research and rapid developments, discuss the latest orthopaedic disease treatments, and review the latest scientific research conducted globally during the past year.

In recent years, augmented reality and artificial intelligence technologies have become increasingly useful in orthopaedics thanks to their many advantages that provide operating teams with the tools to take a more specialized approach to patient care.

Dr. Ali Al Suwaidi pointed out that the objectives of the annual conference of the Emirates Medical Association since its inception aims to provide a platform to train national doctors and their counterparts from neighboring countries on the latest global trends in the diagnosis and treatment of Orthopaedic disease and exchange experiences and knowledge in everything related to orthopaedics; c surgeries with the best international experts and specialists, in addition to reviewing the latest modern medical devices and equipment used in orthopaedic surgeries and discussing new treatments.

He added that the current session of the conference will focus mainly on the modern uses of medical endoscopes and artificial intelligence in the fields of knee and shoulder joint replacement through the use of augmented reality through the "detail" and manufacturing of the knee or shoulder for each patient separately according to the patient's sizes, and will also focus on the role of stem cells and plasma in the prevention, treatment and cultivation of cartilage, especially for young people and sports injuries, pointing out that preserving cartilage at young ages at an early age makes us avoid replacing The joint in the future.

In general, the conference discusses recent developments in the fields of orthopaedics, including upper limb surgery, pelvic and lower limb surgery, knee, arthroplasty, sports injuries, meniscus, foot and ankle. In addition to the latest techniques in the treatment of fractures, for the first time that is discussed at the conference due to the increase in those cases in which the bones and tendons of the shoulder joint are transferred, replaced and transplanted.

On the sidelines of the conference, a group of local and international companies specialized in orthopaedic surgery and pharmaceutical companies will display the latest devices and equipment used in diagnosis and treatment in orthopaedics, including modern robotic technology and advanced medical endoscopes.

The conference highlights Abu Dhabi as a world-class treatment and medical center for medical tourism in various medical specialties, including subspecialties and complex orthopaedic surgeries, with its advanced infrastructure and distinguished health environment, in addition to the availability of high-level medical and nursing cadres and branches of major hospitals and international health centers.
